MPR and AXIS Specialty Extend Day One Relationship to 2025

MPR was delighted to have the support of AXIS Specialty Europe SE when we commenced trading over five years ago.

Financial strength is a key feature, but there are also shared values of underwriting expertise, superior service and high quality claims handling in specialty lines of business. We also share a culture grounded in our people and which encourages technical expertise, collaboration, diversity and entrepreneurialism.

This is why MPR is thrilled to extend our relationship with AXIS for another three years.
